

INSTRUCTIONS FOR AUTHORS

In the journal „Glasnik Zaštite Bilja“, all categories of scientific papers, expert papers, authors' reviews, presentations from scientific and expert conferences as well as other thematically acceptable articles in Croatian and English are published.

This journal uses double-blind review by two reviewers-experts from relevant fields, which means that both the reviewer and author identities are concealed from the reviewers, and vice versa, throughout the review process. Authors can propose two potential reviewers - experts in the field. Authors can also suggest the names of experts who they do not want to review the paper with adequate explanation. NOTE: The Editor is not obligated to accept the proposed reviewers.

The material should not have been previously published elsewhere and not being considered for publication elsewhere.

Content and volume of articles

The title of the article should be concise. The names of the authors should follow the title. Titles and addresses should be indicated on a separate sheet of paper. Every author should provide: academic degree, name and address of the organization in which is employed, and his function in the organization in which is employed. For easier contact authors needs to provide telephone number, fax and email address. Telephone and fax numbers will not be published in the journal.

Every article must have an abstract in Croatian and English. Below the abstract, three to five key words must be stated. For manuscripts published in the Croatian language, the English version of the title, abstract and keywords are coming in the end of the operation, after the chapter Literature, and vice versa.

The authors that are cited in the text must be stated the surname and the year of publishing (in brackets). If there are more than three authors, the surname of the first author must be cited, and added *et al.*, followed by the year of publishing.
